**AIP  
SUPPLEMENT**

Nr 14/16 13 OCT
--------------------

**DUBLIN AIRPORT (EIDW)**

**CONSTRUCTION OF ENGINE TEST SITE**

For a period of approximately six months, starting in October 2016, work will be in progress on the construction of a new engine test site adjacent to TWY H2 at Dublin Airport.

The working area is shown in the appendix to this supplement. It will be marked by day and lighted by night as necessary.

Working hours will generally be:

Day work:	0800 – 2000 hrs (local)
Night work:	2200 – 0500 hrs (local)

These times are indicative. Exact dates and hours of work will be promulgated by NOTAM, with reference to this supplement.

Taxiways B3 and H2 may be withdrawn from service from time to time during the works. Withdrawal of taxiways will be coordinated with respect to other construction works in progress on the aerodrome, in order to minimise disruption.
